CAREER SUMMARY

B.Tech Computer Science student (Data Science specialization) with strong skills in Python, data analysis, machine learning, and visualization. Eager to contribute to data-driven projects and grow in analytics and software development roles.

EDUCATION

Siksha 'O' Anusandhan University, Bhubaneswar —

B.Tech Computer Science And Engineering (Ongoing)

Jawahar Navodaya Vidyalaya, Puri —

Matriculation and Higher Secondary (CBSE), 2022

INTERNSHIP EXPERIENCE

Computer Hardware & Network Management — July 2025 – August 2025

Central Tool Room & Training Centre (MSME), Government of India, Bhubaneswar

- Gained hands-on training in computer hardware, networking fundamentals, and system management.
- Performed hardware installation, assembly, and troubleshooting of computer systems.
- Worked on operating system installation and basic server handling tasks.
- Acquired foundational knowledge of computer networking concepts and Red Hat Linux.

Python Development Intern – June 2025 – July 2025

Cognifyz Technologies

- Solved real-world programming challenges to strengthen Python fundamentals.
- Built applications including validators, games, generators, and file-handling programs.
- Improved problem-solving, logic building, and coding efficiency.

PROJECTS

Sentiment Analysis Using Machine Learning (2024)

- Built a machine learning model to classify sentiment from text data
- Performed data preprocessing, model training, and evaluation
- Improved accuracy through feature engineering and tuning

Financial Data Analysis Using yFinance API and web scraping (2025)

- Extracted financial and stock market data using the yFinance API and web scraping techniques.
- Performed data cleaning, transformation, and analysis using Pandas to generate reliable insights.
- Developed interactive visualizations and an end-to-end dashboard using Plotly to compare stock prices and revenue trends.

TECHNICAL SKILLS

Programming Languages: Python, Java, C,C++

Tools: VS Code, GitHub, Anaconda, Tableau, Excel/Spreadsheets

Operating Systems: Linux, Red Hat Linux , Ubuntu Desktop

Core Skills: Machine Learning, Computer Networking, Hardware Installation, OS Installation, Data Analysis, Web Scraping, MySQL, Data Structures

Cloud Platforms: Google Cloud (Vertex AI, Gemini API), IBM Cloud

AI & Generative AI: Generative AI Applications (Gemini, Bing Chat, Vertex AI)

SOFT SKILLS

Collaboration, Critical Thinking , Communication, Planning, Teamwork and Time Management

CERTIFICATIONS

- Oracle Cloud Infrastructure 2025 AI Foundations Associate (1Z0-1122-25)
- Deloitte Australia - Data Analytics Job Simulation
- Adobe Hackathon Participation
- Computer Networking Certification
- Gen AI Academy – Google Cloud

EXTRACURRICULAR ACTIVITIES

- State-level Badminton Player
- NSS Volunteer at Siksha 'O' Anusandhan University
- Member, Google Developer Group , Bhubaneswar

LANGUAGE PROFICIENCY
